

1898

WHAT IS CLAIMED IS:

5

1. A method of treating a patient suffering from a neuromuscular disorder or condition, said method comprising administering to the patient a therapeutically effective amount of a combination of at least two neurotoxins selected from a group consisting of botulinum toxin types A, B, C, D, E, F and G, an amount of each selected neurotoxin being further selected to control a duration of therapeutic activity of the administered combination.

2. The method according to claim 1 wherein the selected neurotoxins are botulinum toxin types A and B.

3. The method according to claim 1 wherein the selected neurotoxins are botulinum toxin types A and C.

4. The method according to claim 1 wherein the selected neurotoxins are botulinum toxin types A and D.

5. The method according to claim 1 wherein the selected neurotoxins are botulinum toxin types A and E.

6. The method according to claim 1 wherein the selected neurotoxins are botulinum toxin types A and F.

7. The method according to claim 1 wherein the selected neurotoxins are botulinum toxin types A and G.

8. The method according to claim 1 wherein the duration of therapeutic activity is suitable for treatment of joint dislocations, relaxation for physical therapy, alleviation of muscle spasm, immobilization of a joint undergoing surgery and for prevent of muscle contractions prior to or after surgery.

9. The method according to claim 1 wherein the duration of therapeutic activity is suitable for treating tendon and ligament alignment repair, treatment of scoliosis and spasm of sphincter muscles.

10. A method of treating a patient suffering from a neuromuscular disorder or condition, said method comprising administering to the patient a therapeutically effective amount of botulinum toxin type A and after a period of time administering to the patient a therapeutically effective amount of at least one neurotoxin selected from a group consisting of botulinum toxin types B, C, D, E, F and G in order to provide a short term enhancement of the therapeutic effect of the botulinum toxins.

11. The method according to claim 10 wherein the selected neurotoxin comprises botulinum toxin type B.

12. The method according to claim 10 wherein the selected neurotoxin comprises botulinum toxin type C.

13. The method according to claim 10 wherein the selected neurotoxin comprises botulinum toxin type D.

14. The method according to claim 10 wherein the selected neurotoxin comprises botulinum toxin type E.

15. The method according to claim 10 wherein the selected neurotoxin comprises botulinum toxin type F.

16. The method according to claim 10 wherein the selected neurotoxin comprises botulinum toxin type G.

17. A composition suitable for treating a patient suffering from a neuromuscular disorder or condition, said composition comprising a therapeutically effective amount of a combination of at least two neurotoxins selected from a group consisting of botulinum toxin types A, B, C, D, E, F and G, an amount of each selected neurotoxin being further selected to control a duration of therapeutic activity of the administered combination.

18. The composition according to claim 17 wherein the selected neurotoxins are botulinum toxin types A and B.

19. The composition according to claim 17 wherein the selected neurotoxins are botulinum toxin types A and C.

20. The composition according to claim 17 wherein the selected neurotoxins are botulinum toxin types A and D.

21. The composition according to claim 17 wherein the selected neurotoxins are botulinum toxin types A and E.

22. The composition according to claim 17 wherein the selected neurotoxins are botulinum toxin types A and F.

23. The composition according to claim 17 wherein the selected neurotoxins are botulinum toxin types A and G.

24. The composition according to claim 17 wherein the duration of therapeutic activity is suitable for treatment of joint dislocations, relaxation for physical therapy, alleviation of muscle spasm, immobilization of a joint undergoing surgery and for prevent of muscle contractions prior to or after surgery.

25. The composition according to claim 17 wherein the duration of therapeutic activity is suitable for treating tendon and ligament alignment repair, treatment of scoliosis and spasm of sphincter muscles.
